

FOR IMMEDIATE RELEASE

SEIDIO ANNOUNCES INNOCASE™ SURFACE FOR MOTOROLA DROID

Houston, Texas – December 14, 2009 – Seidio, Inc., the leading manufacturer of premium Smartphone accessories, is very excited to announce the release of the Innocase™ Surface for the Motorola Droid. It is the perfect solution for those who want premium protection and at the same time want to maintain the sleek look of their device.

The Innocase™ Surface provides an amazingly thin layer of protection without adding the excessive bulk of other cases. It is less than 1mm thin and is made from a high quality, lightweight and durable polycarbonate plastic that won't crack or break. The Innocase™ Surface consists of a front and back piece that fit your phone precisely and causes no friction when sliding the Droid open and closed. This case allows full access to the touch screen, front buttons, and the slide out keyboard. It also has precision cutouts for all ports and controls, including the camera, speakerphone, and microphone. The smooth edges don't interfere with typing and Seidio's signature soft touch finish provides a great feel and better grip without attracting lint.

The Innocase™ Surface retails for \$29.95 and colors include Black, Sapphire Blue, Ash Grey, Rose Pink, Burgundy, Amethyst, and Autumn Gold. Black is shipping now and other colors are expected to be available the week of December 18th. For more information on these and other great Seidio products, please visit www.seidioonline.com.

Founded in Houston, Texas in 2002, Seidio, Inc. is a leading developer and manufacturer of premium Smartphone accessories. We're a visionary company with a passion for innovation and an understanding of our customer's needs.
